STRANGE FATALITY IN WAKE OF KOKI CASE "TEN YEARS OF PROSPERITY"—DOHRMAN

CONSTITUTION IS PROMISED CHINA

PEKIN, China, Dec. 3.—Puyi, the child Emperor of China, ascended the Throne yesterday. The edict issued by the regency government pledges the Throne to follow the policy of the late Emperor. The people are promised constitutional government in nine years.

HAYTIANS KILLED AND QUIET DOWN

PORT AU PRINCE, Hayti, Dec. 3.—There was looting and a general state of anarchy throughout the city last night. Twelve were killed before order was restored. The situation today is one of comparative quiet.

FRISCO'S NEW MYSTERY—STRYCHNINE POISONING

SAN FRANCISCO, Calif., Dec. 3.—Henry Boas, a traveling salesman, died here under most mysterious circumstances. His death was due to poisoning by strychnine sent him in a letter.

KOMURA TO ROOT

WASHINGTON, D. C., Dec. 3.—Japanese Ambassador Takahira today conveyed to Secretary Root the congratulations of Foreign Minister Komura on the recent diplomatic exchange, setting forth the settled policies of the two nations.

STRICKEN BY ASSASSIN

CONSTANTINOPLE, Turkey, Dec. 3.—Ishmael Maher Pasha was assassinated today.

SATTERLEE SWORN IN

WASHINGTON, D. C., Dec. 3.—Herbert Satterlee was today sworn in as Assistant Secretary of the Navy, succeeding Newberry.

DEATH FOR FISHERMEN

TOKIO, Japan, Dec. 3.—Thirty-five fishing boats have been wrecked off Hatsu Island. Over 350 fishermen have been drowned.

NEW RECORD MADE

Twelve days and fifteen hours from Nagasaki, the fastest trip ever made by a vessel of her class, was the record made by the U. S. Army transport Thomas, which arrived here at 8:30 o'clock this morning. Good weather was encountered all the way across and the officers of the Thomas believe that their record is likely to stand for some time.

Though the Thomas was due to arrive tomorrow, the attaches of the local depot, quartermaster's office did not expect to see her before Saturday morning. Shortly after daybreak she was reported, however, and by 9 o'clock the voyagers were exercising on the streets of this city.

PREPARE TO SEND SITE AMMUNITION

So Far Only 5 Per Cent. Of Post Card Votes Favor Change

When the Korea sails for the Coast tomorrow she will have on board a broadside of ammunition in the Federal building site matter sent to Washington by the Chamber of Commerce and the Merchants' Association, all in favor of the Mahuka site.

The Chamber of Commerce will send the resolutions it has passed, strongly opposing the proposed change of site, as well as certified copies of the minutes held on July 17, last year, and of last Saturday and Monday, the former being the occasion on which the Mahuka site was at first endorsed by the Chamber, and the latter two being those at which the resolution committee was appointed, reported, and had its report adopted. Copies will also be sent of the decree and the petitions in the condemnation suit for the Mahuka site, maps of the site, and copies of articles appearing in the press on the subject.

The Merchants' Association will send a copy of its resolution against the change, and the postal cards which have been received with votes on the question. This forenoon about two hundred of these were received, and so far less than five per cent. of the answers have been in favor of the Irwin site.

CHRISTMAS CARGO COMES IN ARIZONAN

Laden with 6385 tons of miscellaneous cargo for these islands, the big freight steamer Arizona of the American-Hawaiian line, entered harbor this morning and tied up at the railroad wharf. The Arizona brings a large cargo of Christmas goods as well as a considerable quantity of staples.

There are pianos, sewing machines, phonographs, canisters of blasting powder, mules and bales of hay included in the cargo, a large part of which is intended for Oahu. More than 100 Singer sewing machines were unloaded this morning.

The Arizona brings six husky mules for the local quartermaster's corral. There are nearly a hundred head of horses and mules on board for Hilo, so that as far as live stock is concerned, the ship is filled pretty nearly to her capacity.

Captain Nichols reports a pleasant trip from the Coast, though the weather during the first two days was rather rough. The ship was well laden, however, so the heavy seas had but little effect.

BORN.

APOLIONA—On School street, December 1, 1908, to Mr. and Mrs. Sam Apollona, a son.

The American Humane Association held its thirty-second annual convention at New Orleans in November.

If You Are

NIECE OF MOSES KOKI IS DYING

Report Says Material Witness For Defense Won't Live

That the niece of Moses Koki, a material witness in his trial, is lying at her home near to death is the report that has come here from Hawaii. The trial of Moses Koki on a charge of embezzling something over \$1000 was to have begun several weeks ago, but it was then postponed on the representation of Koki's counsel that he was the only one taking care of the sick girl.

The case was then postponed sine die, but it was thought probably that the trial could be started some time next week. Mr. Breckons, U. S. Attorney, has made arrangements to go ahead with the second trial of Koki, but he will probably allow a continuance in case the above report proves true.

Bad luck seems to have hounded this family since Moses Koki was first apprehended and charged with robbing the United States mails. Two of his relatives who were alleged to be numbered as his accomplices have died. The girl who is at present so near death's door is a material witness for the defense.

MAY ESTABLISH BANANA FACTORY

Will Make Flour, Coffee Etc., From Useful Fruit

That a St. Louis man is planning to locate in Honolulu a plant for converting bananas into flour, coffee, dehydrated bananas is one of the interesting features contained in the report which Secretary Wood will present to the Promotion Committee at its meeting this afternoon.

In full the report reads as follows: By the last steamer, we received a letter from Mr. W. G. Neimyer, general agent at Chicago for the Southern Pacific lines, stating that he and his office force were doing their utmost to interest the traveling public in Hawaii, being stimulated to renewed effort recently by Burton Holmes, who gave four lectures on Hawaii in Chicago during the week ending November 21st.

Dr. L. B. Sperry writes from Waterloo, Iowa, November 19th, in part as follows: "I have given my Hawaii lecture five times this season and am to put it on in two or three cities in this State during the coming month. The colored fish plates and night blooming cereus views attract a great deal of attention and comment. In Boston, where I recently gave 'Hawaii,' the papers spoke highly of my views and lecture."

The District Passenger Agent of the Canadian Pacific Railway Company in Boston, writes under date of November 16th, "I have just given my map 'The Cross Roads of the Pacific' to a lecturer in this city. I would therefore appreciate it if you could send me another one for my office."

Clippings to hand this mail speak of (Continued on Page 6)

CHANGE MOLOKAI'S JUDICIAL CIRCUIT

Whitney Wants Settlement Cases Tried In Honolulu

Acting Attorney General Whitney is at present working on a law which will be introduced to the consideration of the Legislature for a change of the Judicial Circuit in which Kaula, the Leper Settlement proper at Molokai is situated.

The Attorney General's Department handles all the cases that arise with respect to matters at the Settlement, and, as Molokai is now classed in the Second Judicial Circuit with court on Maui, it is necessary for a member of the Department to go to that island for each case. If Kaula is put in the First Judicial Circuit, all cases can be tried here in Honolulu. The proposed change will not affect the rest of the island of Molokai.

Mr. Whitney is still working on the tenement house law, which will hit directly at the Japanese camps in the residential sections of the city. He is finding considerable difficulty in the construction of a suitable law covering the chief points in this question, without having the law then apply to all boarding houses, such as The Pleasanton, for instance.

GUARDIANS FOR CAMPBELL CHILDREN

Abigail W. Kawanankoa was this morning appointed guardian of Kapiohale Campbell, who has been held in adoption by the late Mrs. Campbell Parker. Little Kapiohale is five years and nine months old. Samuel Parker was appointed guardian of Mary Beatrice Campbell, who is fifteen years of age. Both were appointed to serve without bond.

Tom Johnson's bank, the Depositors' Savings and Trust company, of Cleveland, O., has been sold to the Cleveland Trust Company and the First National bank of that city.

James J. Hill said at New York the country must cooperate with President-elect Taft in putting the land on a prosperity basis. He was optimistic on outlook for business.

DOHRMAN PREDICTS THAT WE PROSPER

SUGAR PROTECTION, FEDERAL WORK, INCREASE OF MILITARY, NEW INDUSTRIES AND TOURISTS HIS REASONS FOR BELIEVING HONOLULU IS TO HAVE A SUBSTANTIAL GROWTH

That Hawaii will enjoy solid prosperity for, at least, the next ten years to come, is the prediction of F. W. Dohrman, the prominent Coast business man, who, coming here with the delegation of business men who visited Japan, remained over for some time, during which he has taken an active part in the discussion of the main questions which loomed up before the business community. He will leave for the Coast tomorrow, and goes away with a feeling of confidence, based on the observations he has made during his stay, that Hawaii is entering on a safe and solid career of prosperity.

"My general impression is that Hawaii is entering on a new era of development," said Mr. Dohrman. "Not like ten years ago, the boom year, which was not at all a benefit, but rather a detriment, but an era of solid, slow but sure improvement. I came to these conclusions simply from impressions, and impressions are not always to be relied upon, but all the same there are certain signs which generally mean certain results."

"In the first place there seems to be no reason why the policy of the Government of protecting the principal industry of the islands, should be changed. Therefore the sugar industry will, I think, continue to be the principal source of income for the islands."

"Next in importance, if not for a while of equal importance, I consider the improvements under way and contemplated by the Government, which will bring a great deal of money into circulation in the islands. From my observations in other places, I judge that even after the principal improvements have been made, the Government will spend a great deal of money here annually. This therefore means that for the next ten years to come, at least, a new element in favor of prosperity for the community."

"In addition, the Government will maintain here a large number of officials, both in the Army and Navy, and a large number of soldiers and sailors, which will not only add to the money in circulation, but which is bound to be a great attraction to tourists and travelers. I therefore look for an increase in the number of visitors, which is another element of prosperity."

"Finally, I understand that there are a number of diversified industries under way and planned which will help to develop the natural resources of the islands. "All of these elements I feel cannot fail to improve conditions generally by degrees, even though there are many drawbacks that remain that will somewhat retard all the possibilities of the islands."

Gunplay Prevalent

C. Miller, a sailor of the Iroquois who was held a prisoner at the Naval Station, broke loose last evening and repaired himself uptown, where, it is said by the police, he had an engagement which he was bound to keep, jail or no jail. It is also alleged that he took a revolver from the naval arsenal before embarking on his quest.

Miller wound up at the famous Winston block. Here he was espied by the vigilant Col. Knox, who reported to the police that a strange colored gentleman, sporting a revolver, was trying to break into the select colored society which is domiciled in the Winston block.

Officer Manase responded to the call, and found Miller, who was taken to the station and locked up for investigation. The gun could not be found. Miller said that he had given it to another colored man, but that gentleman was at the time incapacitated by two copious libations, and could not be aroused. This morning when he had recovered, consciousness, he explained that Miller had given him the gun, but that he had returned it.

Kekunahia, a Hawaiian, who is

said to be a prison guard, this noon went to his home in Peterson lane, with a jag and a revolver. He fired ten shots and threatened to shoot his wife. He was also taken in charge by the police.

The quarterly convention of the Young People's Union will be held in Central Union church Saturday evening at 7:30. Mrs. Katherine Lent Stevenson will speak. Everyone should avail themselves of this opportunity of hearing Mrs. Stevenson. Everybody welcome.

J. I. Silva, Elelele, Kaula, is holding the largest clearance sale ever known on the Garden Isle. All lines of goods are reduced and many holiday bargains may be secured from him.

Twenty-seven Chinese were arrested this noon by Officer Leal at a place on Maunakea street. They were locked up for investigation. It is believed that they were playing paikau.

"For Rent" cards on sale at Bulletin office.

Holiday Neckwear

We are ready for the Holiday Rush. We are stocked up with the handsomest line of fine ties and cravats ever made.

The wife's Christmas present of a tie to her husband is always appreciated and we would like to see the man who would not be proud to wear any one of the ties we show. You just cannot make mistake in selecting them.
